PROFESSIONAL SUMMARY

Software Engineer with 1+ year of hands-on experience across the full stack, delivering production systems spanning Node.js/Express and PostgreSQL/MySQL on the backend, React/Next.js on the web, and Flutter on mobile. Owned and shipped business-critical products end to end, including an AI-powered enterprise knowledge platform, an automated performance evaluation engine, and a training management mobile application, working across API integration, responsive UI delivery, and role-based security. Adapts quickly to new codebases and holds a high engineering bar around clean architecture and maintainable code.

TECHNICAL SKILLS

Backend: Node.js, Express.js, Python, RESTful APIs, Session & JWT Authentication, Role-Based Access Control (RBAC)

Databases: PostgreSQL, MySQL, SQLite, ChromaDB (Vector DB), Firebase Cloud Messaging (FCM)

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Shadcn UI, Bootstrap

Mobile: Flutter (Dart), BLoC / Provider State Management, Clean Architecture

AI Integration: Ollama (local LLM for structured reports & Q&A), Grok API, DeepSeek API, ChromaDB Semantic Search

Tools & DevOps: Git/GitHub, Postman, Insomnia, Figma, cPanel

PROFESSIONAL EXPERIENCE

Software Engineer Intern — Gheero

Apr 2025 – Present

Addis Ababa, Ethiopia

Contributing across core company products spanning AI knowledge systems, mobile architecture, and web platforms.

Gheero AI Knowledge Assistant

- Built an internal RAG platform enabling employees to query company documentation through natural language.
- Vectorized policy and onboarding documents using ChromaDB and integrated Ollama to deliver sub-second, context-aware answers.
- Implemented secure authentication and persistent multi-turn chat history using PostgreSQL.

AI Performance Report Generator

- Developed a full-stack tool (React, Node.js, PostgreSQL, Ollama) that transforms raw employee task logs, challenges, and milestones into rubric-based performance summaries.
- Added custom date-range and department filtering to support flexible reporting needs.

Gheero Trainer Application

- Contributed to the Flutter mobile app as part of the mobile development team, applying Clean Architecture and BLoC state management.
- Built dynamic modules for trainings, sessions, and cohorts, including trainee attendance tracking and assessment evaluation.

Gheero Web Platform

- Worked as frontend developer translating Framer designs into pixel-perfect, responsive Next.js pages using Shadcn UI and reusable React components.
- Optimized pages for speed, accessibility, and smooth user experience.

Full-Stack Developer Intern — Bluespark Business Technology Solution Plc

Jul 2024 – Oct 2024

Addis Ababa, Ethiopia

Inventory Management & Material Request System

- Led end-to-end development of a full-stack web application (React, Node.js, Express) to automate material request workflows and real-time inventory tracking.

- Designed relational database schemas in MySQL using Prisma ORM.
- Implemented secure JWT authentication and fine-grained Role-Based Access Control (RBAC) to enforce multi-tiered requisition approvals and material dispatch permissions.
- Engineered modular, reusable UI components integrated with asynchronous RESTful endpoints to optimize front-to-back data exchange and responsiveness.

FINAL YEAR PROJECT

Ethio-Smart ServiceLink *B.Sc. Software Engineering, Jimma University*

Cross-platform mobile marketplace connecting clients with verified local service providers in Ethiopia.

- Built with Flutter and BLoC state management for a cross-platform (iOS/Android) client experience.
- Integrated Firebase Cloud Messaging (FCM) for real-time booking push notifications.
- Developed a NestJS RESTful backend API to handle service listings, bookings, and provider verification.

EDUCATION

B.Sc. in Software Engineering, Jimma University *2022 – 2026*

GPA: 3.7 / 4.0
